Vision

To become an excellent and competitive Faculty of Business Management in Malaysia that is internationally recognized for its professionalism in education, training, research and consultancy services.

Mission

The Faculty of Business Management will achieve academic excellence based on quality work and culture through:

- providing integrated program with courses fulfilling the needs of the industry and nation
- effective development of human resources capable of delivering internationally recognized research and consultancy services
- producing professional and competitive graduates towards satisfying industry needs through conducive teaching and learning environment

message from the dean

The year 2012 provided the Faculty of Business Management (FBM) with greater challenge. As UiTM embarked to be an institution of higher learning to be well recognised globally, we at FBM had to be among the forefront as a subsystem of an organisation that is dynamic and is constantly doing its utmost to be truly well respected.

Against this backdrop FBM will always operate as a professional unit to give birth to future corporate business leaders. As such we will not ignore the important ingredients needed in the theory and practice needed for the successful operations of various business fields.

We constantly monitor the change in every level of business environment to ensure that courses and programmes are relevant and of high quality. Our monitoring of the environment will ensure our staff and students are abreast with latest development in the world of business. Our programmes are developed through modules that seek to question and to develop new knowledge through research and amalgamation of various business subjects. Wherever possible we encourage both staff and students to publish their findings in various journals for dissemination purposes.

FBM recognizes that to have programmes and courses relevant to various industries pose strong challenges. To this end FBM has to be active with a wide range of programmes that have become issues debated by business community.

The image of FBM not only as a faculty within the UiTM but as a national institution attracts large attention from the country. Therefore FBM acknowledges its obligation to community service in the country through commitment that will benefit corporations and government agencies.

With the successful transfer of some of the Faculty's programmes in Shah Alam to our new campus in Puncak Alam, we were then faced by the challenge to consolidate our position as an ever expanding faculty. This expansion was in line with the Government's aim to provide opportunity for those who meet the requirements to continue their studies at tertiary level. As such the Faculty has to accommodate the ever-increasing number of students.

The acceptance of the increment of students means the Faculty has to restructure itself to ensure the presence of credible governance to enhance the quality of standard is maintained. In this aspect more units have been added to help the Dean to cope with additional administrative works.

Also the increase in the number of student's means more academic staff must be added to strengthen the number we already have. In this aspect the Faculty has to be careful. Only those committed to the Faculty and UiTM and with the right qualifications will be accepted. A proper combination of quantity and quality of staff will in the long run benefit everyone in the Faculty especially the students.

The merger that occurred with the Faculty of Office Management and Technology has been successful. Despite being a bigger entity we have been able to treat equally every unit in accordance with the requirements needed.

Again as in the previous year a number of our staff has won promotion. The promotion and secondment to several centres or institutes in the UiTM system are indications of the Faculty being recognised as a niche faculty to be reckoned with. We hope more will be promoted in 2013.

The Faculty likes to record its appreciation to all those who served the Faculty well in 2012. A special thank you is extended to all those who are retiring after a number of loyal service to the Faculty.

We have tried to be comprehensive in this annual report to cover activities we conducted in 2012. We hope our stakeholders will be able to judge our performances with an independent view without prejudice. As I mentioned in our last report the Faculty hopes information provided in the report will be useful to all stakeholders on the Faculty's direction to be on par with other business faculties in this country and beyond.

Thank you.

Professor Dr Faridah Hj Hassan
Dean
Faculty of Business Management
Universiti Teknologi MARA

Administrative/Academic & Support Staff - Shah Alam
